Kant and a culture of freedom

ABSTRACT: The expression “a culture of freedom” is unmistakably modern. Yet its meaning is not immediately clear. My purpose in this paper is to clarify the possible meaning of this expression by taking Kant’s practical philosophy as a point of reference. In order to do so, I will depart from Kant’s explicit conception of culture, and try to relate it to his own distinction between external and internal freedom, especially as it appears in the *Metaphysics of Morals*.¹

¹ Except for the three Critiques, which are quoted by their initials in German (*Kritik der Reinen Vernunft* = KrV; *Kritik der praktischen Vernunft* = KpV; *Kritik der Urteilskraft* = KU), the rest of Kant’s works are quoted by their initials in English, followed by the volume and page of the Prussian Academy edition of *Kant’s Gesammelte Schriften*. Thus, Anth.7: 342 is the *Anthropology*, vol. 7, page 342. To quote the *Education*, instead the page, it will be given the paragraph in the English translation. Thus, Education (9); 9: 445, refers to the paragraph 9 in the English edition, and the page 445 in the volume 9 in the edition of the Akademie.

Other abbreviations: MM: *Metaphysics of Morals*. TP: *On the Common Saying: ‘This may be true in theory, but it does not apply in practice’*. End All Things: *The End of All Things*. SBHH: *Speculative Beginning of Human History*. KrV: *Critique of Pure Reason*. KpV: *Critique of Practical Reason*. KU: *Critique of the Power of Judgment*. Idea: *Idea for a Universal History from a Cosmopolitan Point of View*. Religion: *Religion within the Boundaries of Mere Reason*. QQ: *A Renewed Attempt to Answer the Question: ‘Is the Human Race Continually Improving?’*. GG: *Groundwork of the Metaphysics of Morals*.
